COVER LETTER

Dear (To whom it may concern, please ask for CV),

As a sole proprietor of my own web design business, I'd like to give back to my extended community, and as a web design and multimedia design student, I could really use the experience. Since I am also currently have the mindset and grades of a straight A student, I do possess what is required of me to make an excellent website of the highest quality guaranteed out of a student from my excellent program.

From a very young age, I have been fluent in computers. As I began attending Cincinnati State, the computer-based learning process was so easy for me, I joined extracurricular clubs as well as led a study group for students who need that extra mentorship from me in order to succeed. I am a member of the National Society of Leadership and Success (NSLS) You can find more information about me on the enclosed resume.

I am quite fluent in using Adobe Dreamweaver as well as other programs to effectively create a perfectly responsive website that is clickthrough and SEO optimized to deliver results. My methods have been proven by experts in my field, and experts in my field are my instructors in Cincinnati State College.

In choosing me, you are helping me acquire a job later on in my career. This is because the websites I build contribute to my website portfolio. So thank you for considering my application.

Sincerely

Alexander Weinhart

Web and Multimedia Designer
